

## BAPHON 11th Annual Conference & Exhibit

April 30 – May 1, 2027 • Flamingo Resort & Spa, Santa Rosa, CA

### Abstract Readiness Self-Assessment for Poster Presentations

| Criteria Used to Judge Abstracts                                          | Do you have this information to include in your abstract?                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | I am ready!              |
|---------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------|
| <b>Basis of inquiry / Intro</b><br><i>(Are you hooked?)</i>               | You can identify the problem and rationale for chosen direction or approach                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | <input type="checkbox"/> |
| <b>Purpose/objective/ Aim</b><br><i>(Do they jump out?)</i>               | You can clearly state the purpose/objective/aims — this needs to be a sentence that can jump out at the reader                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | <input type="checkbox"/> |
| <b>Methods</b><br><i>(What, who, how?)</i>                                | You can clearly state how you did your project and these should relate to the purpose/objective <ul style="list-style-type: none"> <li>• <b>If research project:</b> you can describe design, sample, how you measured outcomes, if there was an intervention, what it was, and how you analyzed results</li> <li>• <b>If QI/EBP project:</b> you can explain what you did to change a system (the intervention) and how you measured outcomes</li> <li>• <b>If educational project:</b> you can describe the educational intervention, who was the focus of intervention, and how learner outcomes were measured</li> </ul> | <input type="checkbox"/> |
| <b>Findings/Outcomes</b><br><i>(What did you find/what does it mean?)</i> | Logically and concisely stated and relate to stated objectives/aims and methods. <ul style="list-style-type: none"> <li>• <b>If research:</b> Present summary results (outcomes) and comment on how this may influence nursing practice.</li> <li>• <b>If QI/EBP:</b> Present outcomes of project and implications for practice.</li> <li>• <b>If Education:</b> Summarize outcomes of the educational program.</li> </ul>                                                                                                                                                                                                   | <input type="checkbox"/> |
| <b>Content Relevance</b>                                                  | Relevant to pediatric hematology/oncology nursing?                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | <input type="checkbox"/> |

**Note: Please ensure that your abstract includes outcomes.** If your project is still in progress and you do not have any outcomes yet, consider waiting until next year to submit.
